Education

Karpagam College Of Engineering TamilNadu,India
Electronics And Communication Engineering, Bachelors Of Engineering November/2022 - August 2026
CGPA: 7.32
Class 10th Percentage - 69.8%
Class 12th Percentage - 73.3%

Experience

- INTERNSHIP | FULL STACK Coimbatore,India | September,2023 - October,2023
Proficient in designing user interfaces with HTML, CSS, and JavaScript. Experienced in back-end development using Node.js, Python, Java, and PHP. Skilled in team collaboration and hands-on project implementation to enhance front-end and back-end expertise.
- INTERNSHIP | CEEZET Electronicss Pvt Ltd Coimbatore,India | June,2024 - June,2024
Gained in-depth knowledge of the electronics industry through hands-on experience in product design, manufacturing processes, and quality control.
Collaborated with engineers and technicians, gaining insights into advanced technologies and industry best practices.
Applied theoretical knowledge to cutting-edge electronic components and systems.
Developed key professional skills, including teamwork, problem-solving, and executive communication.
- INTERNSHIP | COSMIC Electronics Coimbatore,India | December,2024 - December,2024
Internship at Cosmic Electronics
Gained practical knowledge of electronic devices and systems.
Enhanced professional skills, including teamwork and effective communication.
Collaborated with professionals to understand industry best practices.
- INTERNSHIP | FUJI ELECTRIC INDIA PVT LTD CHENNAI,India | AUGUST,2025 - AUGUST,2025
Internship at Fuji Electric india
Completed a 20-day internship as a Store Worker at Fuji Electric India (5th Aug 2025 – 25th Aug 2025).
Gained hands-on experience in inventory management, product handling, and store operations .
Enhanced skills in coordination, time management, and workplace discipline.

Skills

Programming Languages:C, JAVA, HTML, Python, MYSQL
Libraries/Frameworks : PCB DESIGN,Javascript VScode, Eclipse, MySQL,
Tools / Platforms : Altium,Arduino, Keil, LPC2148, Sci lab

Projects / Open-Source

- Sun & shock : innovative dual source energy storage system Solar panel,Piezoelectric sensor,TP4056
Charger Controller,Lithium ion batterey,current sensor,MC(8051)
The solar integrated vibration innovative dual source energy storage system is highly useful due to its ability to harness and store renewable energy from multiple sources, its efficient energy management, real-time monitoring capabilities, and versatile applications. It provides a sustainable, reliable, and cost-effective power solution for a wide range of scenarios, from remote power supply to educational demonstrations and environmental monitoring.
- VEHICLE COLLISION PREVENTION SYSTEM FOR HILL STATION Force sensor,LCD,IR
sensor,LED,Buzzer
This system integrates advanced technologies, including weight sensors, IR sensors, GPS, GSM modules, and an Arduino board, to enhance safety and minimize risks during vehicle traversal in mountainous regions. The system continuously monitors the vehicle's environment, ensures stability, and provides real-time alerts in case of potential risks or emergencies.

Smart Health Monitoring Wrist Band

The Smart Health Monitoring Wristband is a wearable device that tracks vital health parameters and alerts users to abnormalities. It features a Heart Pulse Sensor for heart rate monitoring, a DHT22 Sensor for temperature and humidity tracking, and a Gas Sensor for detecting harmful gases. An Arduino Nano processes the data and transmits it wirelessly via Bluetooth to a smartphone or display for real-time monitoring.

PCB DESIGN

I designed single-layer PCBs using Altium Designer for circuits like an LED flasher, RPS, and police siren. It gave me hands-on experience with schematics, component placement, and layout design, strengthening my skills

Certifications

The Altium Education PCB Basic Design Course

Python 3.4.3 Training - IIT Bombay. Java Training - Spoken Tutorial IIT Bombay.

Advanced C Programming

NPTEL - Speaking Effectively

NPTEL - Principles Of Signals And Systems

NPTEL - Introduction to Internet of Things (ELITE)

NPTEL - Deep learning

Simplilearn Skillup. Introduction To Responsible AI

Simplilearn Skillup. 2D/3D CAD Modeling of Building Environment (Fundamental)

Bentley. PowerBI Workshop - Office Master. 2nd Indo Norway Workshop - IIT Palakkad. GATEWAY

SOFTWARE SOLUTION

INTERNSHIP. CEEZET ELECTRONICS PVT LTD (INTERN) - CEEZET ELECTRONICS COMPANY.

COSMIC Electronics(INTERN) - COSMIC Company.

Fuji Electric India Ltd (INTERN) - Fuji Company
